STORIES

by Pasi Granqvist, FIN

Walden Kunstausstellungen, Berlin

“Stories” is a video installation work. This documentary style filmed video-collage is presenting an image of us Europeans of today from different ages and social groups. It gives 15 individual real-life stories from Europe, where the surroundings are telling their part as well as the spoken stories.

At summer 2014 in a small festival in Brandenburg’s countryside I saw a quote ‘kein mensch ist illegal’. This was an inspiring sentence for me to realize this work.

“Stories” has been filmed with all time rotating camera and it is presented with all time rotating monitors to give the viewer a feeling of the actual situation and location.

“Stories” was filmed during winter 2014-15 in Germany and Portugal. This show at Walden Kunstausstellungen is the premiere for the work and it will be presented later this year in LAR gallery, Portugal and A.I.P. Headquarters gallery, Germany.
